**Ans:** Andaman and Nicobar Islands lie to the south-east of India.

**(iv)** Which island countries are our southern neighbours?

**Ans:** Sri Lanka and Maldives are the two island countries that are the southern neighbours of India.

**Question 3:**

The central location of India at the head of the Indian Ocean is considered of great significance. Why?

- [Answer](#)

The Indian landmass is centrally located between east and west Asia. The part that is attached to the Asian continent connects India (through land routes and mountain passes) to the various countries lying to its north, west and east. The part that protrudes into the Indian Ocean connects India (through the trans Indian Ocean routes) to Europe, west Asia and Africa in the west and the countries of east Asia. The strategic location of India has contributed to the exchange of ideas and commodities, through land and sea, since ancient times. This is the reason why its location at the head of the Indian Ocean is significant.
